PACKAGING

**COLLECTION 2026**

# COSMETICS & PERSONAL CARE

Packaging possibilities for your brand.

## Shape your next collection.

SELECTED FORMATS / FINISHES / COMPONENTS

A CONSIDERED SELECTION

# Your range. Your identity.

Explore packaging formats for skincare, body care, hair care and beauty applications.

VOUTSINAS brings together packaging options to help you shape a coherent collection, from the main container to the closure, colour and decoration.

**03** Pump & dropper bottles

**04** Foam & compact formats

**05** Cream & body-care jars

**06** Airless & refillable formats

**07** Tubes & precision applicators

**08** Jars & closure components

**09** Colour, finish & decoration

**10** Build your packaging brief

This catalogue presents selected examples, not a stock list. Catalogue references identify the illustrated family. Final material, capacity, colour, closure and availability are confirmed for each enquiry. Product compatibility requires sample testing.

BOTTLES

# Pump & dropper bottles

From everyday dispensing to targeted care.

VP-C01

## Lotion pump bottles

**FORMAT**

300 / 350 ml

**MATERIAL**

PET bottle

**CLOSURE**

Pump dispensing

A rounded format for coordinated body-care and cleansing ranges.

VP-C02

## Dropper bottles

**FORMAT**

20 / 30 / 50 ml

**MATERIAL**

Material on request

**CLOSURE**

Dropper closure

Compact packaging for serum and oil concepts, with colour and decoration options.

DISPENSING

# Foam & compact formats

Match the dispenser to the product experience.

VP-C03

## Foam pump bottles

**FORMAT**

150 / 200 ml

**MATERIAL**

PET bottle / PP pump

**CLOSURE**

Foam pump with overcap

A distinctive format for foaming cleansers and hand-care ranges.

VP-C04

## Capsule bottles

**FORMAT**

15 / 30 / 50 ml

**MATERIAL**

PET

**CLOSURE**

Pump or fine-mist options

A compact, rounded silhouette for travel-size and targeted care concepts.

JARS

# Cream & body-care jars

Distinctive forms for coordinated care collections.

VP-C05

## Frosted cream jars

**FORMAT**

50 g reference format*

**MATERIAL**

PET

**CLOSURE**

Screw cap with liner

A frosted appearance with contrasting cap options for face-care collections.

VP-C06

## Round-bottom jars

**FORMAT**

500 ml

**MATERIAL**

PP

**CLOSURE**

Screw cap

A generous format for body-care and hair-care ranges with a soft, rounded profile.

* Nominal product-weight reference; fill volume depends on formulation.

SYSTEMS

# Airless & refillable formats

Explore alternative dispensing and refill concepts.

VP-C07

## Airless cream jars

**FORMAT**

Capacity on request

**MATERIAL**

Plastic; grade on request

**CLOSURE**

Pump dispensing

A contemporary alternative to an open-neck jar for a coordinated skincare range.

VP-C08

## Refillable jars

**FORMAT**

100 ml

**MATERIAL**

PET/PETG outer / PP inner

**CLOSURE**

Replaceable inner container

A modular jar concept with a separate inner container and screw-cap closure.

APPLICATORS

# Tubes & precision formats

Packaging that brings application closer to the formula.

VP-C09

## Roller-tip tubes

**FORMAT**

10 / 20 ml

**MATERIAL**

PE tube

**CLOSURE**

Stainless-steel roller tip

A targeted applicator format for eye-care and precision skincare concepts.

VP-C10

## Twist applicator pens

**FORMAT**

1 / 2 / 4 ml

**MATERIAL**

PP

**CLOSURE**

Brush / silicone / flocked options

Small-format dispensing for beauty and nail-care applications.

COMPONENTS

# Jars & finishing touches

Complete the range with coordinated containers and closures.

VP-C11

## Wide-opening jars

**FORMAT**

300 g reference format*

**MATERIAL**

PP

**CLOSURE**

Screw cap with liner

A broad opening for cream, mask and body-care packaging concepts.

VP-C12

## Bamboo components

**FORMAT**

18/410 - 28/410 options

**MATERIAL**

Bamboo exterior / plastic interior

**CLOSURE**

Caps, pumps, sprayers, droppers

Coordinate closures across a collection. Neck and dispensing compatibility must be matched.

* Nominal product-weight reference; fill volume depends on formulation.

MAKE IT YOURS

# One coherent collection.

Select the container, then coordinate the details across your range.

## 01 Colour

Discuss opaque, translucent or gradient effects and colour matching for the chosen material.

## 02 Surface finish

Explore gloss, matte or frosted appearances, subject to the selected container and process.

## 03 Decoration

Screen printing, hot stamping, labels and other decoration methods can be assessed for your artwork.

## 04 Components

Coordinate caps, pumps, droppers and applicators by colour, function and neck compatibility.

Options vary by model and order quantity. Final specifications, artwork feasibility, minimum order quantities, lead times and sample requirements are confirmed in the quotation.

START A PROJECT

# Tell us what you need.

Share the references that interest you and the essentials of your project.

## 01 Catalogue reference

For example VP-C01, plus the preferred shape or finish.

## 02 Formula & application

Product type, intended use and dispensing requirements.

## 03 Capacity & quantity

Target fill volume and estimated order quantity.

## 04 Branding & timing

Colours, artwork, decoration and desired delivery date.
